ADELAIDE HOSPITAL

1937

SIXTY-EIGHTH

ANNUAL REPORT

of the

Board of Management.

NOTE.

Subscribers living in the Country or Suburbs upon whom the demand for orders for admission or treatment as outpatients is not great would confer a great favour on many necessitous cases by signing their order forms and forwarding them to the Secretary of the Adelaide Benevolent and Strangers' Society, Morialta Street, Adelaide. Digitized by the Internet Archive in 2019 with funding from Wellcome Library

MISS E. M. ASHTON

The Board of Management of the Adelaide Hospital in accordance with section 31 (1) of the Hospitals Act, 1934, has the honour to submit for the information of the Minister the Sixty-eighth Annual Report on the administration, showing the condition and progress of the Institution for the year ended 31st December, 1937.

The Inspector-General of Hospitals, who is also the Director-General of Medical Services, is the Chairman of the Board, as provided by the Hospitals Act, 1934.

The Board consists of Dr. L. W. Jeffries (Chairman), Sir Wallace Sandford, and Mr. E. R. Dawes. The Secretary to the Board is Mr. C. E. Spiller. The Board held 52 meetings during the year. Quarterly conferences with the Honorary Staff were held, in addition to conferences with the Advisory Committee. The Chairman and the members frequently visited the hospital throughout the year in connection with the administrative work.

All worn out and useless articles are condemned under the personal supervision of a member of the Board.

Sir Wallace Sandford and Mr. E. R. Dawes, whose appointments as members of the Board expired by effluxion of time on 28th February 1937, were reappointed for a further term of three (3) years from 1st March, 1937.

The Board desires to place on record its pleasure at the Knighthood conferred on Sir Wallace Sandford by His Majesty the King.

GENERAL.

The following figures are submitted relating to the statistics and cost of treatment of in-patients, &c.:—

ADELAIDE HOSPITAL.

IN-PATIENTS.

	1936.	
Population of Hospital—In-patients— Remaining in Hospital on 1st January	452	509
Admissions during year	11,382	11,268
	11,834	11,777

Discharges during year— Recovered Relieved Unrelieved Other causes Died Remaining in Hospital on 31st December	1936. 1,521 6,717 1,358 853 876 509	1937. 1,192 6,909 1,743 597 829 507
Average number resident daily throughout the year Average number of days each patient who was discharged or died during the year, was resident in the Hospital	555 18·28	589 19·70
Cost of Treatment. (Excluding Laboratory, Dental Branch and Chest Cl Expenditure. 1936.	Exp	enditure. 1937.
Maintenance— £ s. d. Salaries, wages, &c. 51,406 7 2 Provisions. 15,533 8 5 Medicines, druggist sundries, &c. 14,183 16 1 Drapery, clothing, &c. 1,664 17 3 Crockery, ironmongery, &c. 563 1 0	57, 18, 14,	$egin{array}{cccccccccccccccccccccccccccccccccccc$

Total number of attendances 54,986 56,282 111,268 54,113 57,326 111,439

There were three hundred and ninety-eight (398) minor operations performed in the Out-patients' Operating Theatre during the year.

Cost of Treatment of Out-patients.

	193		1937.			
	£	s.	d.	£	s.	d.
Salaries, wages, &c	3,725	3	9	3,820	19	7
Medicines, surgical sundries, &c				3,787	7	11
Vaccines and protein solutions		-		351	4	2
	£7,296	6	5	£7,959	11	8
			d.	£		
Average total cost per out-patient	0	5	$10^{4}/_{5}$	0		
Average total cost each out-patient attendance	0	1	$3^{7}/_{10}$	0	1	$5^{1}/_{10}$

CASUALTY ROOM.

Patients to the number of 49,730 passed through the Casualty Room. Of that number 13,478 were treated or advised. The remainder were either admitted to the Hospital or sent on to the Out-patients' Department.

There were 509 minor operations performed in the Casualty Operating Theatre during the year.

CHEST C	LINIC.
---------	--------

		1937.	
	Males.	Females.	Total.
Number of cases from previous year	146	159	305
Number of new cases applying	138	171	309
Number of new cases taken on at Clinic	117	137	254
Re-attendances	1,775	2,584	4,359

Full details of the work of the Chest Clinic for the year 1937, as it now functions under the direction of the Chief Medical Officer for Tuberculosis Services, are published in another section of the report.

REVENUE.

The revenue has been satisfactorily maintained during the year.

The receipts from all sources, including all branches of the Hospital for the year 1937, were £26,121 1s. 3d., as compared with £25,693 12s. for the year 1936, an increase of £427 9s. 3d.

The amount of patients' fees received on account of the Adelaide Hospital (excluding the Dental Branch) showed a satisfactory increase, £20,892 11s. 1d. for the year 1937, as against £19,757 1s. 11d. for the year 1936, an increase of £1,135 9s. 2d.

The revenue from the South Australian Government Laboratory was £561 ls. 6d. less than the previous year—£2,178 6s. 9d. for the year 1937 as compared with £2,739 8s. 3d. for the year 1936. The reduction

in revenue from this Branch is due to the resumed activity of the Laboratory of the Northfield Infectious Diseases Hospital, with a consequent reduction of routine examinations at the Adelaide Hospital Laboratory.

Full details of the revenue for the year 1937 will be found in Appendix No. 2.

A comparison of the revenue for the years 1921-1937 is also shown.

BEQUESTS AND DONATIONS.

_			
	£1,841	8	4

The Board acknowledges with thanks the above bequests and donations, also the annual contributions listed herein.

EXPENDITURE.

Details of expenditure will be found in Appendix No. 2.

The total expenditure for all branches of the Hospital for the year 1937 was £140,127 1s. 3d., as compared with £125,723 9s. 5d. for the year 1936, an increase of £14,403 11s. 10d.

The expenditure of the Adelaide Hospital (excluding the Laboratory, Dental Branch, and the Chest Clinic) was £125,926 15s. 7d. for 1937 as against £114,655 4s. 8d. for 1936, an increase of £11,271 10s. 11d.

The chief increases in expenditure were as follows:—

	£	s.	d.
Salaries and Wages	6,299	5	7
Provisions for Patients and Staff	2,970	7	1
X-Ray Appliances	621	7	4
Repairs, &c., by Architect-in-Chief's			
Department	1,626	5	2

Classification salary increases and large increases in the number of the Nursing and Domestic Staffs due to the introduction of the 48-hour week for nurses, are the principal reasons for the increased cost of salaries and wages.

Fifty-seven (57) additional nurses were required for the 48-hour week.

The expenditure of the South Australian Government Laboratory was £2,223 19s. 9d. more than the previous year. Salaries and wages accounted for £865 19s. 3d. of this increase.

There was a decrease of £195 7s. 11d. in the expenditure of the Dental Branch.

POPULATION.

The daily average number of in-patients for the year 1937 was 589, as compared with 555 for the previous year, an increase of 34.

Patients treated at the Out-patients' Department numbered 25,267, as compared with 24,720 for the previous year, an increase of 547.

Out-patient attendances increased from 111,268 to 111,439, an increase of 171.

The admissions for treatment at the Dental Branch were 4,060 in 1937, as compared with 4,176 in 1936, a decrease of 116.

HONORARY STAFF.

The Board expresses its appreciation of the valuable work and cooperation by the members during the year.

Dr. J. Brook Lewis retired from the position of Honorary Ophthalmologist on the 11th August, 1937, pursuant to Regulation 53, and in recognition of his many years of valuable service he was appointed Honorary Consulting Ophthalmologist.

The following members who retired by effluxion of time on 30th June, 1937, were reappointed for a further term of three (3) years, viz.:—

Drs. W. Ray, A. R. Southwood, Physicians; Messrs. L. C. E. Lindon, I. B. Jose, Surgeons; G. H. Burnell, W. J. W. Close, A. F. Hobbs, Assistant Surgeons; Dr. D. L. Barlow, Bacteriologist in Charge of Vaccine and Asthma Clinic; Dr. R. M. Glynn, Curator to Ear, Nose and Throat Section of the Pathological Museum; Dr. A. L. Tostevin, Curator to Eye Section of the Pathological Museum; Drs. R. N. Reilly, Gilbert Brown, J. M. Gunson, Anaesthetists; Mr. R. A. L. Laughton, Consulting Metallurgist to the Dental Branch; Dr. H. T. J. Edwards, Dental Surgeon.

The following Honorary Clinical Assistants were appointed for one year from 1st January, 1937, viz.:—

Drs. R. T. Binns, E. F. Gartrell, A. J. Hakendorf, I. S. Magarey, C. B. Sangster, and M. E. Chinner, Medical Section; Drs. N. S. Gunning, J. E. Hughes, W. W. Jolly, G. E. Jose, S. Krantz, J. C. Mayo, B. C. Smeaton, G. H. Solomon, A. C. McEachern, E. F. West, Surgical Section; Drs. H. M. Fisher and R. L. Verco, Gynaecological Section; Drs. L. W. Linn and W. Gilfillan, Dermatological Section; Dr. J. E. Bateman, Vaccine and Asthma Clinic; Dr. G. H. Black, Ophthalmological Section; Dr. B. S. Hanson, X-ray Section.

The following appointments were also made, viz.:—Prof. F. E. Goldby, Consulting Anatomist; Mr. L. C. E. Lindon, Surgeon, Neurosurgical Clinic; Mr. J. E. Hughes, Clinical Assistant to the Neurosurgical Clinic; Dr. M. Schneider, Ophthalmologist; Dr. G. H. Black, Assistant Ophthalmologist; Dr. J. A. Rolland, Assistant Ophthalmologist; Drs. S. Pearlman and T. L. McLarty, Clinical Assistants to the Ophthalmological Section; Prof. M. L. Mitchell, Consulting Biochemist; Dr. H. A. McCoy, Assistant Radiologist; Drs. M. W. Fletcher, D. K. McKenzie, J. D. Rice, M. M. Haslam, Anaesthetists; Dr. C. B. Sangster, Clinical Assistant to the Tuberculosis Section; Dr. A. H. White, Clinical Assistant Medical Section; Dr. J. C. Mayo, Clinical Assistant, Radium Section.

The following were appointed in a temporary capacity, viz.:—Drs. M. Schneider, Ophthalmologist; Dr. G. H. Black, Assistant Ophthalmologist; Dr. S. Pearlman, Clinical Assistant to the Ophthalmological Section (all during the absence of Dr. A. L. Tostevin, on leave); Dr. J. A. Rolland, Clinical Assistant to the Ophthalmological Section in the place of Dr. Pearlman, on leave; Dr. R. F. Matters, Consulting Adviser to the Night Clinic, Female Section; Dr. H. W. Wunderly, Physician to the Tuberculosis Section; Dr. A. C. Savage, Assistant Physician to the Tuberculosis Section (both during the absence of Dr. Cowan, on leave); Dr. A. C. Savage, Clinical Assistant, Tuberculosis Section vice Dr. C. B. Sangster; Dr. A. C. McEachern, Pathologist; Dr. S. Krantz, Assistant Pathologist (both during the absence of Prof. J. B. Cleland, on leave); Mr. E. F. West, Assistant Surgeon, Orthopaedic Clinic vice Dr. L. C. Betts, on leave; Dr. H. E. Pellew, Clinical Assistant to the Gynaecological Section vice Dr. Magarey, on leave; Dr. L. W. Linn, Dermatologist; Dr. G. E. Jose, Clinical Assistant, Dermatological Section (both during the absence of Dr. W. C. T. Upton, on leave from 1st February, 1938); Drs. M. T. Cockburn and J. M. Dwyer, Research Assistants to the Institute of Medical Science.

LEAVES OF ABSENCE.

The following special leaves of absence were granted, viz.:—Dr. D. R. W. Cowan, Physician, Tuberculosis Section, four months from 7th June, 1937; Prof. J. B. Cleland, Pathologist, seven and a half months from 1st November, 1937; Dr. W. C. T. Upton, Dermatologist,

eight months from 1st February, 1938; Dr. L. O. Betts, Assistant, Orthopaedic Section, eleven months from 1st December, 1937; Dr. V. de P. Rice, Anaesthetist, 12 months from 24th January, 1937; Dr. M. W. Fletcher, Anaesthetist, 12 months from 15th November, 1937; Dr. A. L. Dawkins, Assistant Pathologist, from 19th August, 1937, to 30th April, 1938 (extension).

ADVISORY COMMITTEE.

The following were appointed members of the Adelaide Hospital Advisory Committee for a term of three years from 28th April, 1937, viz.:—

Nominated by the Council of the University, Dr. F. S. Hone; Faculty of Medicine, Dr. C. T. Ch. de Crespigny; Faculty of Dentistry, Mr. A. M. Cudmore; Adelaide Hospital Board, Dr. E. Angas Johnson and Hon. R. D. Nicholls, M.P.; Honorary Medical Staff, Dr. W. Ray and Mr. I. B. Jose. The Board appreciates the advice received from the Committee during the year.

ADELAIDE HOSPITAL LABORATORY ADVISORY COMMITTEE.

The plans for the reorganisation of the Adelaide Hospital Laboratory and for the creation of an Institute of Medical and Veterinary Science progressed during the year. The following persons were reappointed to the Adelaide Hospital Laboratory Advisory Committee for a period of 12 months from 27th March, 1937:—

Nominated by the Adelaide Hospital Board—Dr. L. W. Jeffries, Mr. E. R. Dawes (during the absence on leave of Sir Wallace Sandford). Nominated by the University of Adelaide—Dr. C. T. Ch. de Crespigny (Chairman of the Committee), Dr. W. Ray. Also the Honorary Pathologist to the Adelaide Hospital, Professor J. B. Cleland.

On the return of Sir Wallace Sandford in November, 1937, approval, was received for both him and Mr. Dawes to be members of the Committee.

The Committee, in collaboration with the Director of the Laboratory prepared plans for a new building to be erected in the Adelaide Hospital grounds abutting Frome Road, and on the 23rd August, 1937, the foundation stone of the building was laid by the Hon. the Chief Secretary. It is expected that the new building will be ready for occupation early in 1939. The cost of the building and necessary scientific equipment is to be met partly by the Government, partly from funds provided by three generous donors through the University of Adelaide, and partly by funds made available by the Commissioners of Charitable Funds.

In order to provide proper control of the Institute an Act entitled the "Institute of Medical and Veterinary Science Act, 1937" was passed by the State Parliament on 2nd December, 1937. This Act provides for the establishment of an Institute of Medical and Veterinary Science and for the appointment of a Council to control the Institute. The Council is to consist of six members, as follows:—

- (a) The person holding the office of Director-General of Medical Services.
- (b) Two other members of the Board of Management of the Adelaide Hospital.
- (c) Two persons nominated by the University of Adelaide, and
- (d) A person whose business includes the raising of stock.

The Act names Dr. E. Weston Hurst as the first Director of the Institute.

Up to the end of the year the Act had not been proclaimed, but it is expected that this will be done early in 1938, and that the Institute will begin on 1st July, 1938.

OFFICIAL VISITORS.

The following official visitors were reappointed for a term of one year, viz.:—Mrs. M. B. Martin and Mr. T. P. Howard.

Mrs. A. M. Lindsay, R.R.C., is also an official visitor.

NURSING STAFF.

The roster of 48-hour per week for the Nursing Staff was put into operation during the year.

The number of additional Nursing Staff appointed for this purpose was as follows:—1 Sister Tutor, 3 Charge Nurses, 3 Staff Nurses, 50 Probationer Nurses.

In order to provide accommodation for the additional Staff it was necessary to lease apartments on North Terrace, opposite the Hospital, viz.:—Chalmers House and six apartment houses.

This additional accommodation was necessary pending the erection of a new Nurses' Home on Frome Road, plans for which have been approved.

In consequence of the overcrowded condition of the Hospital ten (10) additional probationer nurses were appointed.

ELECTRIC CLOCKS.

On account of the unsatisfactory condition of the clocks in the Hospital it was decided to install electric clocks throughout, which were provided from funds held by the Commissioners of Charitable Funds.

CONVALESCENT BED CASES.

Arrangements were made with St. Margaret's Convalescent Hospital, Semaphore, to receive convalescent patients from the Adelaide Hospital, who still require nursing in bed. It was agreed to accommodate at St. Margaret's an average of 20 patients at a rate of £1 6s. 6d. per week.

This arrangement will result in making more beds available at the Adelaide Hospital, and reduce the waiting list. This scheme came into operation at the end of the year.

FIRE APPLIANCES.

Fire appliances are inspected regularly by an officer of the Fire Brigades Board who gives instructions to the male and female staff in their use.

ADELAIDE HOSPITAL AUXILIARY.

The Board appreciates the work of members of the Adelaide Hospital Auxiliary who continue to provide refreshments, &c., at the Kiosk situated on the grounds of the Hospital, and who expend the profits on bed linen, &c., for the wards. The Government continues to subsidise such expenditure in aid of a Women's Hospital, which it is proposed to erect on the Hospital grounds.

GOLD MEDALLISTS.

The following Probationer Nurses having passed first class in the examinations, were presented with a Gold Medal, viz.:—Thelma Lilian Nicol, Veronica Agnes Jane Coghlan, Catherine Annie Thomas, Norah Muriel Coombs, Maisie Doreen Bettess, Ellen Agnes Jane Menzies, Desma Ryan Fairfax, Elizabeth Irene Uren, Jean Florence Kimber.

RADIUM AND DEEP X-RAY THERAPY.

The Anti-Cancer Campaign General Committee continues to provide funds towards the cost of the work of this branch of the Hospital.

GIFTS.

Appreciation is expressed of the following gifts, viz.:—Magazines, clothing, books, flowers, produce, &c., from many benevolent persons and societies.

The help rendered by lady visitors and various societies is much appreciated.

Attached are statistics, reports, &c.

I have the honour to be, Sir,
Your obedient servant,
L. W. JEFFRIES,

Chairman, Adelaide Hospital Board.

APPENDIX No. 1.

HOSPITAL STATISTICS FOR THE YEARS 1870 TO 1937, INCLUSIVE.

Fees received towards Maintenance of each bed occupied (based on daily average of Patients, and not deducted in calculating "Annual Cost of each Patient").	3.122222224444446666666666666666666666666

* The cost per head is arrived at by making allowance for attendances and medicines, etc., supplied to out-patients, etc., viz., £9,250 11s. 4d. Commencing from 1st January, 1933, an allowance is also made for the revenue received from sundry sales and repayments, etc.

The amount of £125,926 15s. 7d. for the year 1937 does not include:—S.A. Government Laboratory, £8,495 1s. 2d.; Dental Hospital, £4,601 15s. 5d.; Chest Clinic, £1,103 9s. 1d. † For years 1870 to 1923 the amounts shown are the actual expenditure each year. From the year 1924, the amounts shown are the actual cost of maintenance for each year. The years 1929-1937 include expenditure on repairs, etc., by the Architect-in-Chief's Department, which was not previously shown.

† The fees received for 1937 do not include Infectious Diseases Block. £8 13s. 4d.; S.A. Govt. Laboratory, £2,178 6s. 9d.; Dental Hospital, £381 8s.

Three hundred and forty-three (343) patients have been sent to the Convalescent Hospital, Semaphore. The Da Costa Samaritan Fund, created by Miss Da Costa, to assist convalescent patients leaving Hospital, paid for the maintenance of 247 of these patients at the Convalescent Hospital.

The number of cases of enteric fever treated and discharged or died during the year, showing percentage of mortality:—

APPENDIX No. 4.

OPERATIONS FOR 1937.

OPERATIONS ON BLOOD VESSELS.

Ligature of arteries	9
Excision of varicose veins	
Excision of varicocelc	2
Blood transfusion	135
Injection of artery	3
Peri-arterial sympathectomy	1
Aneurysm	
Ligature of jugular vein	4
Venesection	
Embolectomy	1
Ligature saphenous vein	5
	0
Operations on Muscles, Bursae, Tendons, and Nerves.	
Tenotomy	17
Suturing tendons and muscles	29
Excision of bursa	4
Excision of ganglion	$\tilde{5}$
Excision of gasserian ganglion	$\frac{3}{2}$
Injection of gasserian ganglion	1
Injection of gasserian ganglion	5
Tendon transplantation	9
Nerve anastomosis or transplantation	
Suturing nerves	
Resection of nerve and division	6
Stretching of nerve	2
Suturing nerve	3
Excision of neuroma	1
Freeing nerve from callus	
Injection into nerve	8
Sympathectomy	3
Ramisectomy	
Opening Bursa	
Renair of trigger finger	
Repair of trigger finger	1
Rescction lumbar ganglion	1
Operations on Bones.	
(a) Skull—	
Elevation of depressed fracture	8
Exploratory trephine	3
Unilateral subtemporal decompression	27
Ventriculography—drainage of ventricles	$\frac{1}{37}$
Drainage of cerebral abscess	
Removal of cerebellar tumour	2
Subscripted decompression	3
Suboccipital decompression	3
Bilateral subtentorial decompression	3
Removal of cerebral tumor	3
(b) Spine—	
Laminectomy	3
Excision coccyx	1
Lumbar puncture (general anaesthetic)	
Lumbar puncture (local anaesthetic)	7
Albee's bone graft to spine	6
Cisternal puncture	2
(c) Fractures—	
Reductions and setting of fractures (by manipulation only,	
under G.A.)	71
Reduction of fractures and dislocation	19
Wiring of fracture	19
Training Of Itwoodio Transference Control Control Control	10

OPERATIONS ON BONES—continued.

(c) Fractures—continued—	
Insertion of wire pin through bone	24
Insertion of pin through tibia	17
Re-insertion of S.P. nail	1
Plating of fracture	—
Removal of plates and wires	1
Suturing patella	4
Removal of callus	
Correction of malunited fracture (osteocalsis)	1
Freshening ends of ununited fracture	1
Cleaning and setting compound fractures	
Open reduction colles fracture	3
Insertion S.P. nail	11
(d) Amputations and excisions—	
Amputation of—	
Toes	9
Foot	5
Leg	18
Thigh	1
Fingers	17
Hand	2
Forearm	1
Upper arm	
Stump	1
Astragelectomy	
Tarsectomy	
Excision of metatarsal bone	1
Excision of head of radius	1
Incision of periosteum	
Drainage of medulla	14
Sequestrectomy	17
Osteotomy	$\overline{20}$
Excising and curetting sinuses	
Aspiration of T.B. abscess (bone dis.)	
Removal of bony spurs	2
Curetting bone	
Excision of osteophytes	2 2
Other excisions	5
Removal of toenail and fingernail	g
Bone graft	1
OPERATIONS ON JOINTS.	
Reduction of dislocation (by manipulation)	2
Reduction of dislocation (by open operation)	-3
Aspirating joint	3
Arthrotomy	3
Arthrectomy	3 48
Moving of stiff joints	
Arthrodesis	29
Excision of semilunar cartilage	19
Correction of hallux valgus—Bunion	10
Correction of hammer toe]
Exploration of T.B. sinus	- 2
Arthroplasty	2
Removal of loose bodies	
Injection of gas into joint	
OPERATIONS ON GLANDULAR SYSTEM.	
Excision of gland (diagnostic)	23
Excision of glands (therapeutic) (specify)	21
Incision for suppuration	_
11	

OPERATIONS ON GLANDULAR SYSTEM—continued—	
Partial thyroidectomy	49
Removal of thyroid adenoma or cyst	5
Removal of thyro-glassal cysts and other cysts of neck	1
OPERATIONS ON ALIMENTARY SYSTEM.	
Mouth, tongue, lips, &c.— Extraction of teeth	2
Excision of lip (partial or complete)	$\frac{2}{2}$
Excision of lip and glands	
Partial or complete excision of tongue	1
Partial or complete excision of tongue and glands	
Excision of jaw (lower) and glands of neck	
Excision of jaw (upper)	
Closing of salivary fistula	
Oesophagoscopy	30
Removal of F.B. from oesophagus	2
Incision of excision of ranula	4
Removal of dentiferous cyst or epulis	
Removal of cleft palate	
Repair of cleft palate	1
Removal of salivary calculus	2
Excision of parotid tumour	3
Passing of oesophageal bougies	1
Stomach and intestines—	
Gastrectomy	10
Gastrostomy	6
Gastro-enterostomy	12
Closing perforated peptic ulcer	20
Excision of peptic ulcer	11
Exploratory laparotomy	98
Freeing abdominal adhesions	9
Paracentesis abdominis	2
Closure of intestinal perforation	
Colostomy	24
Enterectomy	$\frac{7}{1}$
Entero anastomosis	- <u>- 1</u> 5
Enterostomy	584
Appendicectomy with drainage	19
Drainage of appendical abscess	11
Drainage of subphrenic abscess	6
Drainage of pelvic abscess, P.R	ĭ
Drainage of other abdominal abscess	20
Caecostomy	4
Relief intestinal obstruction	5
Repair of faecal fistula	
Release of gastroenterostomy	2
Repair of twisted omentum	
Opening colostomy	4
Closing colostomy	9
Pyloroplasty	
Removal of type in integrings	-
Removal of F.B. in intestines	1
Lateral anastomasis	1
Appendicostomy	1
Crushing spur of bowel	4
Hernia—	7
Inguinal hernia. Radical cure	181
Inguinal hernia. Strangulated	9

OPERATIONS ON ALIMENTARY SYSTEM—continued.

Hernia—continued—	1.3
Femoral hernia. Radical cure	12
Femoral hernia. Strangulated	$\begin{array}{c} 10 \\ 11 \end{array}$
Ventral hernia. Radical cure	2
Ventral hernia. Strangulated	
Incisional hernia	3
	J
Liver, gall bladder, spleen, pancreas—	2
Incision and drainage liepatic abscess	2
Excision of biliary fistula	7
Hydatid cyst	•
Repair ruptured liver	
Cholecystostomy	150
Cholecystectomy Cholecystenterostomy	2
Re-construction of common duct	
Linectomy	
Repair of ruptured spleen	1
Choledochostomy	3
Cholecystotomy	15
Rectum and anus—	
Haemorrhoids. Radical cure	
Injection of haemorrhoids	2
Ligation of haemorrhoids	
Fistula in ano. Excision	
Fistula in ano. Radical cure	17
Dilatation of stricture	1
Ischiorectal abscess. Incision and drainage	33
Incision of peri-anal abscess	1
Excision of papilloma rectum	1
Excision of rectum	11
Sigmoidoscopy	54
Protoscopy	4 9
Fissure in ano	
Repair of prolapse of rectum	1
Owner over the Crown	
OPERATIONS ON URINARY SYSTEM.	
Kidney— Exploration of kidney	3
Nephrectony	16
Draining perinephritic abscess	4
Removal of stone from kidney	10
Nephropexy	3
Cystoscopy	169
Suprapubic cystotomy	52
Perineal prostatectomy	
Perineal drainage for extravasation of urine	
Vesical calculus. Lithotomy	_
Calculus. Lithetrity	
Nephrotomy	1
Removal of stone from bladder	1.77
Cystoscopy and pyelogram	177
Prostatic punch	$\frac{1}{14}$
Prostatic re-section	14
Drainage for extravasation of urine	43
Passing bladder sound or catheter	The S
External urethrotomy	_
Excision of urethral stricture	Ş
AND TO THE OWNER DULI OUT OF THE OWNER OWN	

OPERATIONS ON URINARY SYSTEM—continued.

Kidney—continued—	
Excision of urinary stricture	
Excision of urinary fistula	2
Incision of prostatic and periurethral abscess v	
Lavage of renal pelvis	3
Removal of stone from ureter	9
Removal of vesical tumour	
Supra-pubic prostatectomy	_
Application of diathermy to bladder	2
Removal of F.B. from bladder,	
Excision of urethral caruncle	1
Transplantation of ureters	4
UVSLECTORIV	1
Lithotrity	1
Opening prostatic and periurethral abscess	5
Repair of ruptured urethra	1
Perineal cystotomy	1
Lithotrity Opening prostatic and periurethral abscess Repair of ruptured urethra Perineal cystotomy Lithotomy	5
OPERATIONS ON MALE GENITAL ORGANS.	
	3
Incision of prepuce	2
Circumcision	12
Reduction	1
Paraphimosis	$\frac{1}{5}$
	13
Radical cure of hydrocele	
Amputation of penis	2 5
Orchidectomy	5 5
Epididymectomy	Ð
Haematocele	
Repair of twisted testicle	2
Belfield's Operation	2
Excision seminal-vesicles	1
Vasopuncture	1
GYNAECOLOGICAL OPERATIONS.	
Vulva—	
Incision of Bartholin's abscess	16
	5
Perineorrhaphy	:, 63
Colpoperineorrphapy	. 4
Vagina— Anterior colporrhaphy	43
Posterior colporrhaphy	14
Plastic for fistulae	_
Post colpotomy	32
Insertion of pessary	6
Anterior Coloptomy	2
Uterus—	
Dilation of cervix	14
Curettage	,599
Trachelorrhaphy	5
Myomectomy	. 8
Painting of cervix and urethra, &c	6
Subtotal hystercetomy	61
Total hystercctomy	31
Amputation of cervix	.,8
Wertheim's Operation	}
Removal of polyp	9
Cauterisation of new growth	2

Gynaecological Operations—continued.

Uterus—continued—	
Cauterisation of cervix	21
Suturing perforated uterus	20
Shortening of round ligaments	70
Repair of urethral prolapse	3
Fothergill's Operation	37
Hysterogram	7
Ventrosuspension	
Ventrofixation	8
Biopsy of cervix	8
Ovary and tubes—	
Excision of ovarian cyst	12
Ovarian tumour	5.
Oophorectomy	21
Salpingectomy	47
Salpingo-oophorectomy	25
Vaginal examination (under G.A.)	15
Salpingostomy	$rac{1}{2}$
Induction of labour	
Caesarean section	4
Partial resection ovary	12
Freeing of pelvic adhesions	8
Craniotomy	
Ligation of tubes	5
Rubner's test	_
Suture of Perineum	1
Subart of Lemicali Control of the Co	_
OPERATIONS ON THE BREAST.	
Excision of tumour	17
Incision of abscess	15
Amputation of breast	12
Amputation of breast with glands	16
OPERATIONS ON THE THORAX.	
Thoracotomy—Drainage	24
Hydatid	7
Thoraco-plasty	20
Paracentesis thoracis	$\frac{2}{2}$
Cauthotomy	
Thorascopy	11
Pneumolysis	1
OPERATIONS OF THE EYE.	
Excision of tumours	2
Plastic operations on lids	104
Removal of ptcrygium	86
Incision and drainage of dacryocystitis	17
Removal of tear sac	2
Paracentesis of cornea	
Washout and curettage ant. chamber	$\frac{-}{2}$
Relief of sacrimal duct obstruction	4
Tenotomy Tenotomy with advancement	4
Advancement	11
Tarsectomy	$\frac{11}{5}$
Enucleation of globe	• • • • • • • • • • • • • • • • • • • •
Evisceration	5
Encleation of globe	2

OPERATIONS OF THE EYE—continued.	
Extraction of lens	62
Peritomy	1
Iridectomy	15
Removal of foreign body	14
Trepline	51
Posterior sclerotomy	2
Tatooing leucoma	
Keratotomy	
Needling lens	48
Injection in nerve	$\frac{1}{2}$
OPERATIONS ON EAR, NOSE AND THROAT.	_
	11
Removal of aural polyp	11
Paracentesis tympani	1
Operations on mastoid antrum—	1.4
Palliative	14
Radical	22
Operations on maxillary antrum—	7.00
Palliative	180
Radical	15
Operations on sphenoidal, ethmoidal and frontal sinuses	26
Excision of turbinal bone	1
Resection of nasal septum	23
Removal of nasal polyp	53
Tonsillectomy	264
Tonsillectomy and adenoidectomy	37
Adenoidectomy	10
Laryngotomy	1
Removal of papilloma of pharynx	4
Removal of F.B. from air passages	
Tracheotomy	3
Bronchoscopy	20
Removal of papilloma of larynx	
Examination of larynx	
Laryngectomy	
Other operations on ear, nose, and throat	2
General.	
Plastic operations on ear, lips, and cheek	2
Plastic operations on jaw, palate and nose	$\frac{2}{3}$
Skin grafts	8
Other plastic operations	4
Removal of superficial tumours and rodent ulcer	42
Incision of abscess and cellulitis	99
Removal of F.B. from soft parts	15
Excision of sinus and scar tissue	8
Excision and suture of wound	51
	31
Excision of ulcers	9
Breaking down tubal adhesions	
Dissection of skewes duct	
Exploration of sinus of cheek	
Removal of tooth and drainage of socket	1~~
Burying radium at operation	155
Removal of radium needles	100
Application of plasters, &c	132
Snipping for microscopic examination	60
Cauterisation	56
Dressing wounds under anaethesia	32
Aspiration of wound of lumbar vertebrae	1
Drainage of subphrenic abscess	1
Grand total	6.088

X-RAY DEPARTMENT.

Report of Work done During 1937.

Honorary Radiologist—Dr. H. C. Nott.

Radiographer—Mr. C. H. Marshall.

Patients under treatment in Hospital, 31st December, 1937—in 7; out-patients, 35		

RADIO-THERAPEUTIC DEPARTMENT.

Total number	of	new	patients	 	 	 				678
Total number	of	visits		 	 	 				10,021

There has been no alteration in accommodation for this Department during the year, but plans for a new clinic room in the old dispensary, a new waiting room for deep X-ray patients and two waiting rooms for clinic patients, as well as alterations in present accommodation, have been prepared by the Architect-in-Chief's Department, and have been passed by the Hospital Board.

While the supply of radon was satisfactory this means of treatment was adopted as far as possible to prevent congestion in the wards, but since November, 1937, when supplies became erratic and inadequate, full use had to be made of the accommodation afforded this Department in the wards.

Towards the end of the year the physicist to the Anti-Cancer Campaign Committee, Mr. E. S. H. Gibson, M.Sc., resigned from the position. The resignation was accepted and the Department is now without the services of a physicist.

RADIUM DEPARTMENT.

(Dr. H. A. McCoy, Hon. Radium Therapist.)

Total number of patients treated	. 889
Radium treatments (including intracavitary,	
interstitial, plates, moulds)	721 347

No alteration has been made in mounting of radium in needles and plaques during the year.

The failure of radon supplies has led to an increased demand for beds in the Hospital for treatment of patients with radium.

DEEP X-RAY DEPARTMENT.

(Dr. J. S. Verco, Hon. Deep X-ray Therapist.)
(Assistant—Dr. Colin Gurner.)

Total number of patients treated	394
Total number of treatments given	4,563
Total number of courses of treatment	502

The plant, using a Phillips water-cooled tube drawing 8mA., has functioned satisfactorily. The first tube burnt out during the year after 1,762·35 hours. The second tube is giving satisfactory service.

Towards the latter part of the year the technique of treatment was changed, the new technique needing longer time to complete a course of treatment. As far as can be judged, treatment by this technique is very satisfactory.

CHEST CLINIC.

Chief Medical Officer for Tuberculosis Services—J. G. Sleeman, M.D. Almoner—Miss M. T. Noall.

ALMONER'S ACTIVITIES.

Number of patients interviewed	
No. of home visits	
Interviews re examination of contacts	-
Number assessed for X-ray attendances	4
State departments	$\frac{2}{1}$
Other institutions	5 3

Concerning the work of the Almoner, the mere tabulation of figures and statistics gives a very poor idea of the activities of this officer. Material assistance has been rendered in many ways, but the constant aim has been to make the patient as self-reliant as possible and to avoid the dispensing of charity by the Adelaide Hospital by referring patients in need of relief to various charitable institutions.

LABORATORY OF BACTERIOLOGY AND PATHOLOGY, ADELAIDE HOSPITAL.

STAFF.

Director:

E. Weston Hurst, M.D., D.Sc. (Birm.), M.R.C.P. (London).

Deputy-Director and Bacteriologist:

A. E. Platt, M.D. (Adelaide), D.T.M., D.T.H. (Sydney), Dip. Bact., (London).

Assistant Bacteriologist:
Nancy Atkinson, M.Sc. (Melbourne).

Temporary Clinical Pathologist.

E. McLaughlin, M.B., B.S. (Adelaide), M.R.C.P. (London).

Temporary Bacteriologist and Microbiologist: Effic Jessie Hone, M.B., B.S. (Melbourne).

Bio-Chemist:

R. J. Cowan, B.Sc. (Melbourne).

Honorary Pathologist.

John B. Cleland, M.D., Ch.M. (Sydney).

Veterinary Pathologist: Vacant.

Research Assistant:

Barbara Cooke, B.Sc. (Adelaide).

In December Mr. McLennan resigned from the staff of the laboratory after 10 years valuable service as Veterinary Pathologist; a successor will be appointed shortly. Dr. J. B. Thiersch was appointed to the new post of Neale Research Pathologist, and will take up his duties early in the new year. Miss Barbara Cooke was appointed Research Assistant.

The plans for the main building of the Institute of Medical and Veterinary Science are now nearly complete, and it is expected that construction will begin early in 1938. A new and up-to-date house for normal and experimental laboratory animals has already been erected and provides for the first time adequate facilities for the experimental investigation of human and of animal diseases.

In consequence of the resumed activity of the laboratory of the Northfield Infectious Diseases Hospital, the number of routine investigations performed during the year has fallen to the previous average level of about 23,000; the annual revenue has fallen correspondingly.

Under the new sub-division of "special investigations" are included more or less complicated experimental researches into the causation of obscure conditions. As a result of one of these it has been shown for the first time that the disease psittacosis occurs in South Australia. During the last year the Ascheim-Zondek test for pregnancy has been performed at the hospital laboratory instead of at the University as previously. The cramped accommodation and general lack of facilities have prevented any considerable amount of research during the period under review.

It is not possible to convey an altogether accurate impression of the activities of the laboratory staff, and of the work done, by giving the actual number of examinations made, for one examination may involve perhaps 10 times the amount of time that another does. The gradual but definite tendency noted in previous years, to increase of those tests needing much time and attention at the expense of comparatively simple tests, has resulted in greater effort being necessary by members of the staff even though the total number of investigations remains the same. Thus the number of test meals doubled during last year, that of urea clearance tests trebled, and that of full blood counts increased at the expense of partial counts. Other similar examples may be discovered by a comparison of the two sets of figures. While it is gratifying that the hospital is thus obtaining a much more efficient laboratory service, if this tendency persists an augmented staff solely for routine work will be needed in the not-far distant future. The following are the routine

The generosity of the Commissioners of Charitable Funds has permitted further binding and preservation of valuable scientific journals. In the past 18 months many hundreds of volumes previously in the form of loose paper parts have been bound, and the value of the library thereby greatly enhanced. Other donations have been made by the Commissioners towards the cost of certain researches.

Scientific Papers Published in 1937.

Hurst, E. W. and McLennan, G. C.—A Case of Schilder's Encephalitis in the Rhesus Monkey. 1937. Sixtieth Annual Report of the South Australian Zoological and Acclimatization Society.

VENEREAL DISEASES.—NIGHT CLINICS.

REPORT FOR YEAR ENDED 31st DECEMBER, 1937.

Improved accommodation for the treatment of venereal diseases is urgently necessary.

The Venereal Diseases Act, passed by Parliament in 1920, has not yet been proclaimed. The provisions of this Act could not be effectively carried out until accommodation for the treatment of both in-door and out-door patients is provided. It is considered that the Act should be proclaimed as soon as possible.

REPORT ON OPERATIONS FOR THE YEAR ENDED 31st DECEMBER, 1937.

MALE SECTION.

Medical Officer—Gilbert Edgar Jose, M.B., B.S., F.R.C.S. Second Medical Officer—John Matthew Dwyer, M.B., B.S.

Report of the Medical Officer.

The main feature of interest this year in the working of the clinic has been the introduction of sulphanilamide for the treatment of urethritis, gonococcal and non-specific.

Though it may still be considered to be more or less experimental, yet there is no doubt that it has cleared up many cases of chronic lower urinary tract infection, and shortened the treatment of many cases of acute urethritis.

Eight patients were seen suffering from primary syphilis, five of whom contracted their disease in Adelaide.

Female Section, Night Clinics, 1937.

Honorary Consulting Adviser—Reginald Francis Matters, M.D., M.S., F.R.C.S.

Medical Officer—Harry Medcalf Fisher, M.B., B.S., F.R.C.S., D.G.O., L.M., M.C.O.G.

Report of the Medical Officer.

In last year's report emphasis was laid on the large decrease in new patients. This year we have to report a large increase in new patients, from 66 to 118.

I am at a loss to account for this. However, total attendances are lower, and the efficiency of our methods of treatment is being improved, as shown by the satisfactory results.

This is due, of course, largely to the excellent work of the nursing staff, and to them great praise is due.

DA COSTA SAMARITAN FUND.

TRUSTEES.

C. E. Spiller, Esq., J.P. (Chairman).
Andrew D. Young, Esq., J.P., A.F.I.A.,
B. P. Martin, Esq.

SECRETARY.

H. G. Nelson, A.F.I.A.

The Da Costa Samaritan Fund was inaugurated in 1898, through the munificence of the late Miss Louisa Da Costa, who left portion of her estate to be held in Trust, the income therefrom to be used for the benefit of convalescent patients of the Adelaide Hospital.

In accordance with the Trust Deed, the estate is vested in three (3) Trustees. The appointment of any Trustee is subject to the approval of His Excellency the Governor.

During the year 1937, four hundred and ninety-seven (497) convalescent patients, who were in needy circumstances, were assisted by the Trustees. Of this number, 247 were sent to St. Margaret's Convalescent Home, Semaphore, and 250 were supplied with surgical appliances, &c. The amount disbursed in this manner during the year was £769 6s. 2d.

In order to be eligible for assistance from the Fund, patients must be certified as convalescent by the Medical and Lay Superintendents of the Adelaide Hospital.

The Trustees desire to place on record their appreciation of a bequest during the year of £88 10s. from the Miss J. A. Stuckey Estate.
